Ref:- Ref.40/50 dated 24-1-50 from the Rationing Officer, Hospet.

The Government have sanctioned the retention of 3 enquiry Officers and one Checking Inspector for Hospet rationed area till 31-3-50 in G.O. No. 365, Food, dated 24-4-49. The Rationing Officer, Hospet reports that it is not possible for one checking inspector to perform all the duties specified in the Rationing Manual effectively and requests that one of the enquiry officer's post may be converted into checking inspector's post. A copy of the Rationing Officer's report is enclosed.

2. In the circumstances explained by the Rationing Officer, Hospet I am of opinion that it is desirable to have two checking inspectors for Hospet rationed area considering the volume of work to be turned out. In this connection, I invite your attention to chapter V--5 general section page 29 of Rationing manual where it has been specified that the staff of a circle office should contain one checking officer for about 40 dealers and establishments. The number of establishments and dealers functioning at Hospet are 13 retail dealers one approved grain shop 55 establishments major and minor 3 trash bazaars, 3 bakeries and 1 biscuit factory. It is rather difficult for one checking inspector to manage with the work.

3. I therefore recommend that the proposals of the Rationing Officer, Hospet may be approved.

Sub:- Establishment - Rationing - Hospet rationed area - One post of checking officer - proposals - submitted.

...

In G.O.No. 365 Food dated 22-4-49 communicated with the Collector's D.Dis. 4844/49-N7 dated 29-4-49 the Government have sanctioned the posts for the appointment of 3 enquiry officers and one checking inspector for work connected with the rationing of foodgrains in Hospect rationed area.

At present the following number of establishments are authorised to function under M.R.O. 1947 in Hospet rationed area.

Major 13 including institutions and residential establishments.
Minor 42
Bakeries 3
Trash Bazaar. 3
Biscuit factory. 1

Besides there are 13 authorised retail dealers and one approved grain shop.

According to the instructions contained at page 30 of the Rationing Manual the checking inspector has to inspect ration shop and major establishments once in a week minor establishments once in two weeks and trash bazaar once in a month. Apart from making these inspections the checking inspector has also to be on the look out to see whether the dealers and establishments are conforming to the rules and regulations under the rationing order and that the supplies made to the dealers and establishments are used in accordance with the rationing regulations.

It is observed that it is hardly possible for one Checking Inspector

to verify the stocks and accounts of the dealers and establishments effectively by conforming to the programme of inspection. One more checking inspector is very much needed. I therefore request that out of the 3 posts of enquiry officers sanctioned for this Office, one post may be converted into one checking inspector and 2 posts may be retained as posts of enquiry officers with the sanction of one more checking inspecto There will be 2 checking inspectors and 2 enquiry officers when it will be possible to have effective supervision over the dealers and establishments.

I further submit that the fact was also represented to the Deputy Controller of Food Rationing (North) during his inspection of the Rationi Office.

I request that sanction may be accorded for the conversion of one post of Enquiry Officer into one of the checking inspector at an early date.
